## ACADEMIC EDUCATION

Gwinnett Technical College –  
**AAS Computer Programming**

*Expected Graduation:* **March 2024**

**GPA: 4.0 / 4.0**

## SKILLS

- Software Development
- Critical Thinking
- Code Review
- Problem Solving
- Adaptive person
- Java
- C++
- Python
- HTML, CSS

## LANGUAGES

- French, Fluent
- Punjabi, Fluent
- Hindi, Fluent
- Spanish, Intermediate

## SUMMARY

My passion for development and emerging technologies fuels my academic journey with direct experience in Java, C++, HTML, and CSS in addition to various school projects. I am actively working to develop proficiency in Python independently. Committed to embracing industry best practices and principles of computer programming, professors highlighted my organizational skills, self-learner, team-working, and adaptability.

## RELATIVE COURSE WORK

### Java:

- Car Dealership application developed using JavaFX, implementing OOP concepts, a professional looking UI, and a detailed documentation of the program.
- Bookstore application built using Java Enterprise Edition (JEE) but also with implementation of SQL statements, Java Server pages, and Enterprise JavaBeans.

### C++:

- School registration clone program that demonstrates usage of OPP concepts, and data manipulation with vector and arrays.

### Web-Development:

- Created interactive and responsive webpages that highlights good practices of HTML and CSS.

## HONORS & AWARDS

- Member of the Phi Theta Kappa Honor Society
